

Dear Mr. Tidwell,

I strongly urge you to rescind your proposal to eliminate senior and disabled discount camping fees on our national forests. Shame on you.

Also, your proposal to let concessionaires not comply with the existing FLREA regulations is illegal.

As a taxpayer of our National Forest System lands and waters, I strongly urge you to stop the privatization of OUR public lands.

On another note, to charge fees to enter our national forests is double taxation without representation and is immoral.

Urging you to keep our public lands PUBLIC!

Kathy Richmond
